Objective

My objective is to work as a full-stack web developer, building websites and applications using Next.js, React, Typescript and Java.

Resume

I have a bachelor's degree and a graduate certificate in Pharmacy. I got very interested in computer programming in recent years, leading me to switch my career. I have always liked logic and problem solving. Currently, I am a front-end web developer focused on Next.js, React, Typescript, Javascript, Tailwind and Git. I also have knowledge in Node.js, Java, PostgreSQL and authentication. I am pro-active, eager to learn and push myself to do my best.

Work experience

Supernova – Front-end Web Developer (May/23 – Dec/23)
- Implementation of full-stack applications using Next.js, Typescript, Tailwind, Contentlayer and Framer-motion;
- REST API integration;
- Code integration following best practices for versioning and Git feature branch workflow;
- Implementation of authentication using Next-Auth.

CEPEDOC – Front-end Web Developer (Apr/23 – Jun/23)
- Building HTML pages for online course;
- Styling using CSS and Bootstrap;
- Building interactive graphics using JS;
- Version control using Git.

City Hall of Águas Mornas, SC, Brazil – Pharmacist (May/2022 – Nov/2022)
- Technical manager;
- Pharmaceutical Assistance;
- Follow-up of patients;
- Support to health team.

Academic Education

- **Estácio** – Undergraduate in Analysis and Systems Development (Feb/2024 – current);

- **Anglia Ruskin University** – Academic exchange program – Program Science Without Borders (CsF/CNPq), Course in Public Health (Sep/2015 – Aug/2016);
- **UFSC** – Bachelor in Pharmacy (Mar/2012 – Jul/2019).

Courses and certificates
- **DevQuest** – Course in fullstack web development with mentors and support (Jan/23 – current);
- **Udemy** – Course in fullstack web development (Dec/22 – current).

Languages
- Portuguese – native;
- English – fluent;
- French – basic;
- Spanish – basic.

Projects
- **Portfolio:**

Personal project built to show curriculum, projects and abilities in web development. Available in Portuguese and English. Built with: Next.js, Typescript, Tailwind e Contentlayer.
Repository: https://github.com/julianastahelin/personal-portfolio
Deploy: https://julianastahelin.vercel.app/

- **Pokédex:**

Personal projects. Application that returns pokémons from an API. Displays details of each pokémon and features search by name and sort by type. Built with: React, Javascript, Styled Components e use of API.
Repository: https://github.com/julianastahelin/pokemon-api-challenge
Deploy: https://pokemon-api-challenge-seven.vercel.app/

Hard skills
- React, Next.js;
- Typescript, Javascript;
- Tailwind, Bootstrap, Styled Components;
- HTML, CSS;
- Use of API;
- Git and GitHub;
- Figma;
- Postman;
- Node.js, Java;
- PostgreSQL;
- Next-Auth.

Soft skills
- Perseverance and determination;
- Teamwork and flexibility;
- Proactivity.
